

# ROBOT

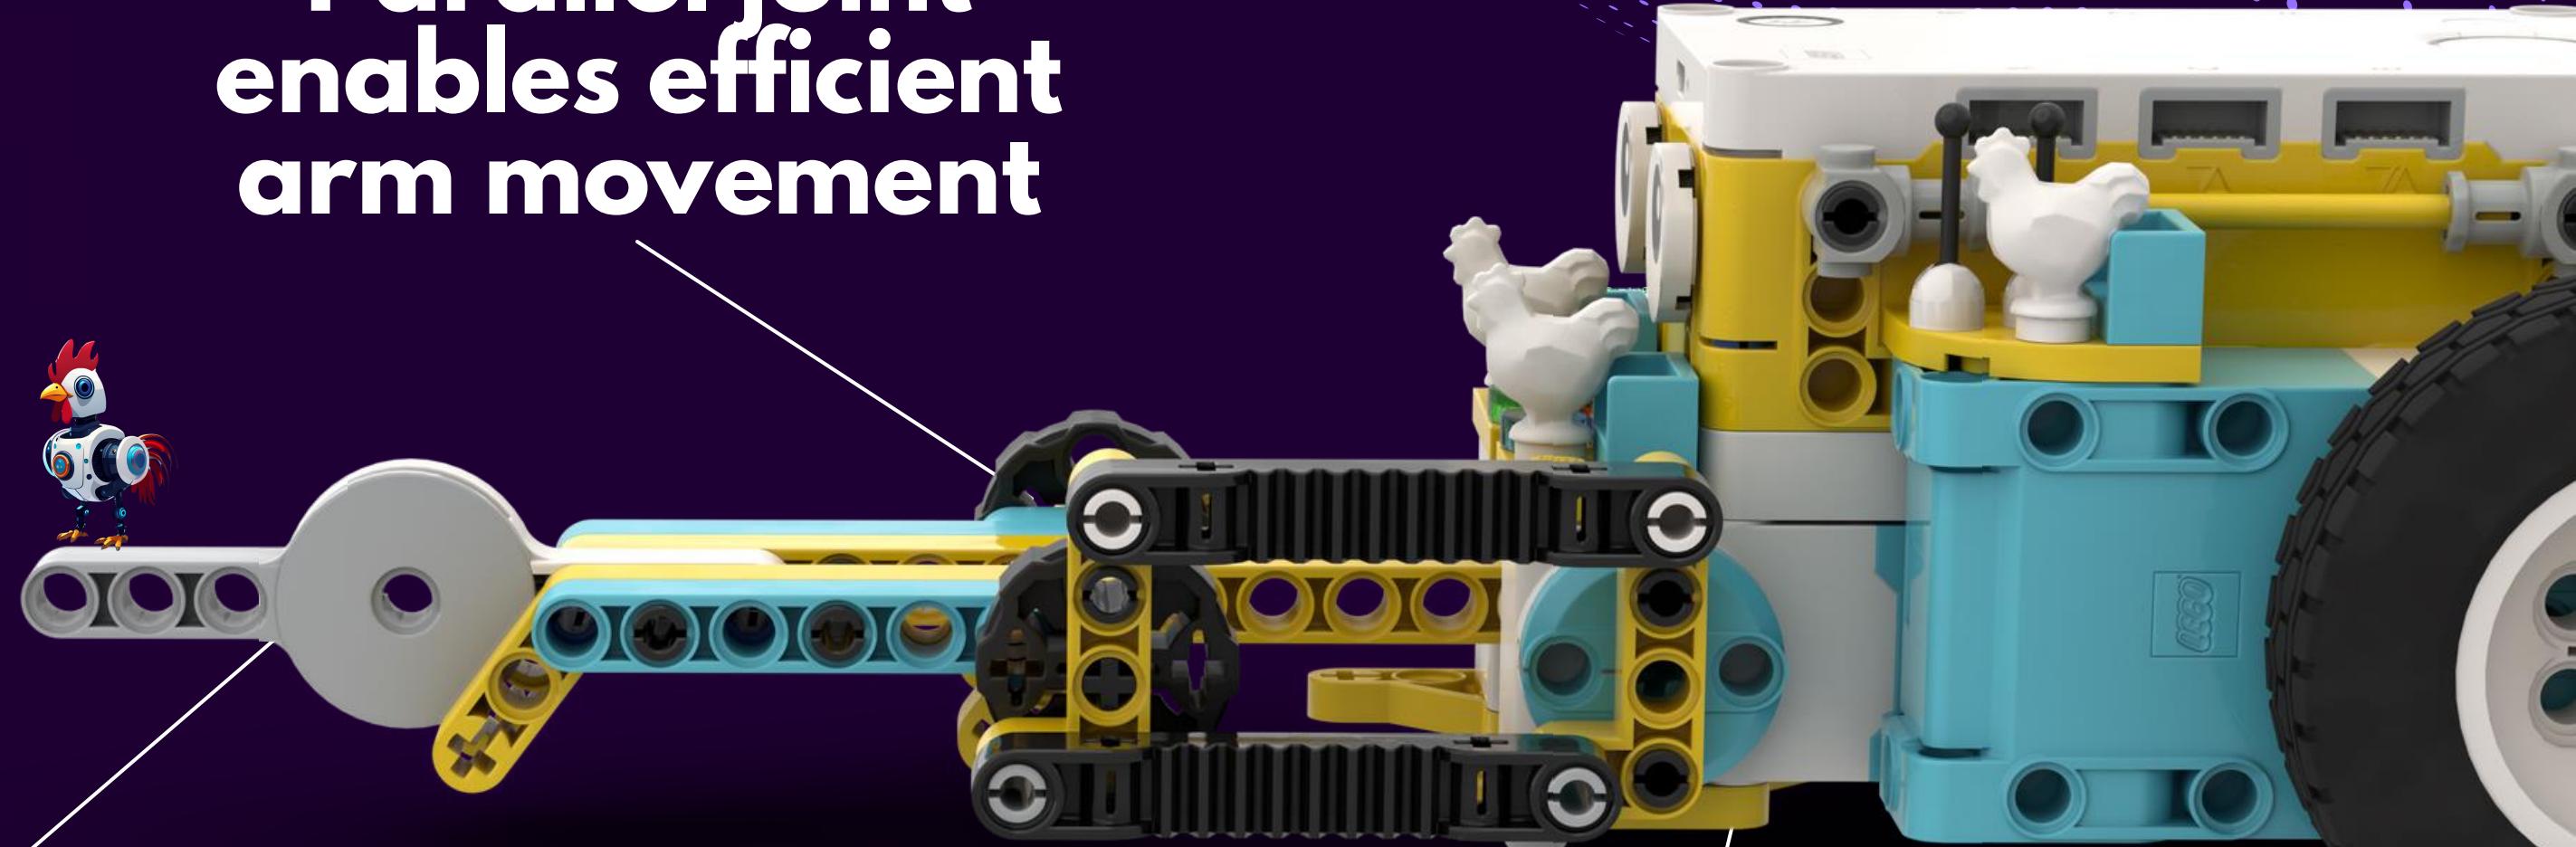

## ROBO ROOSTERS

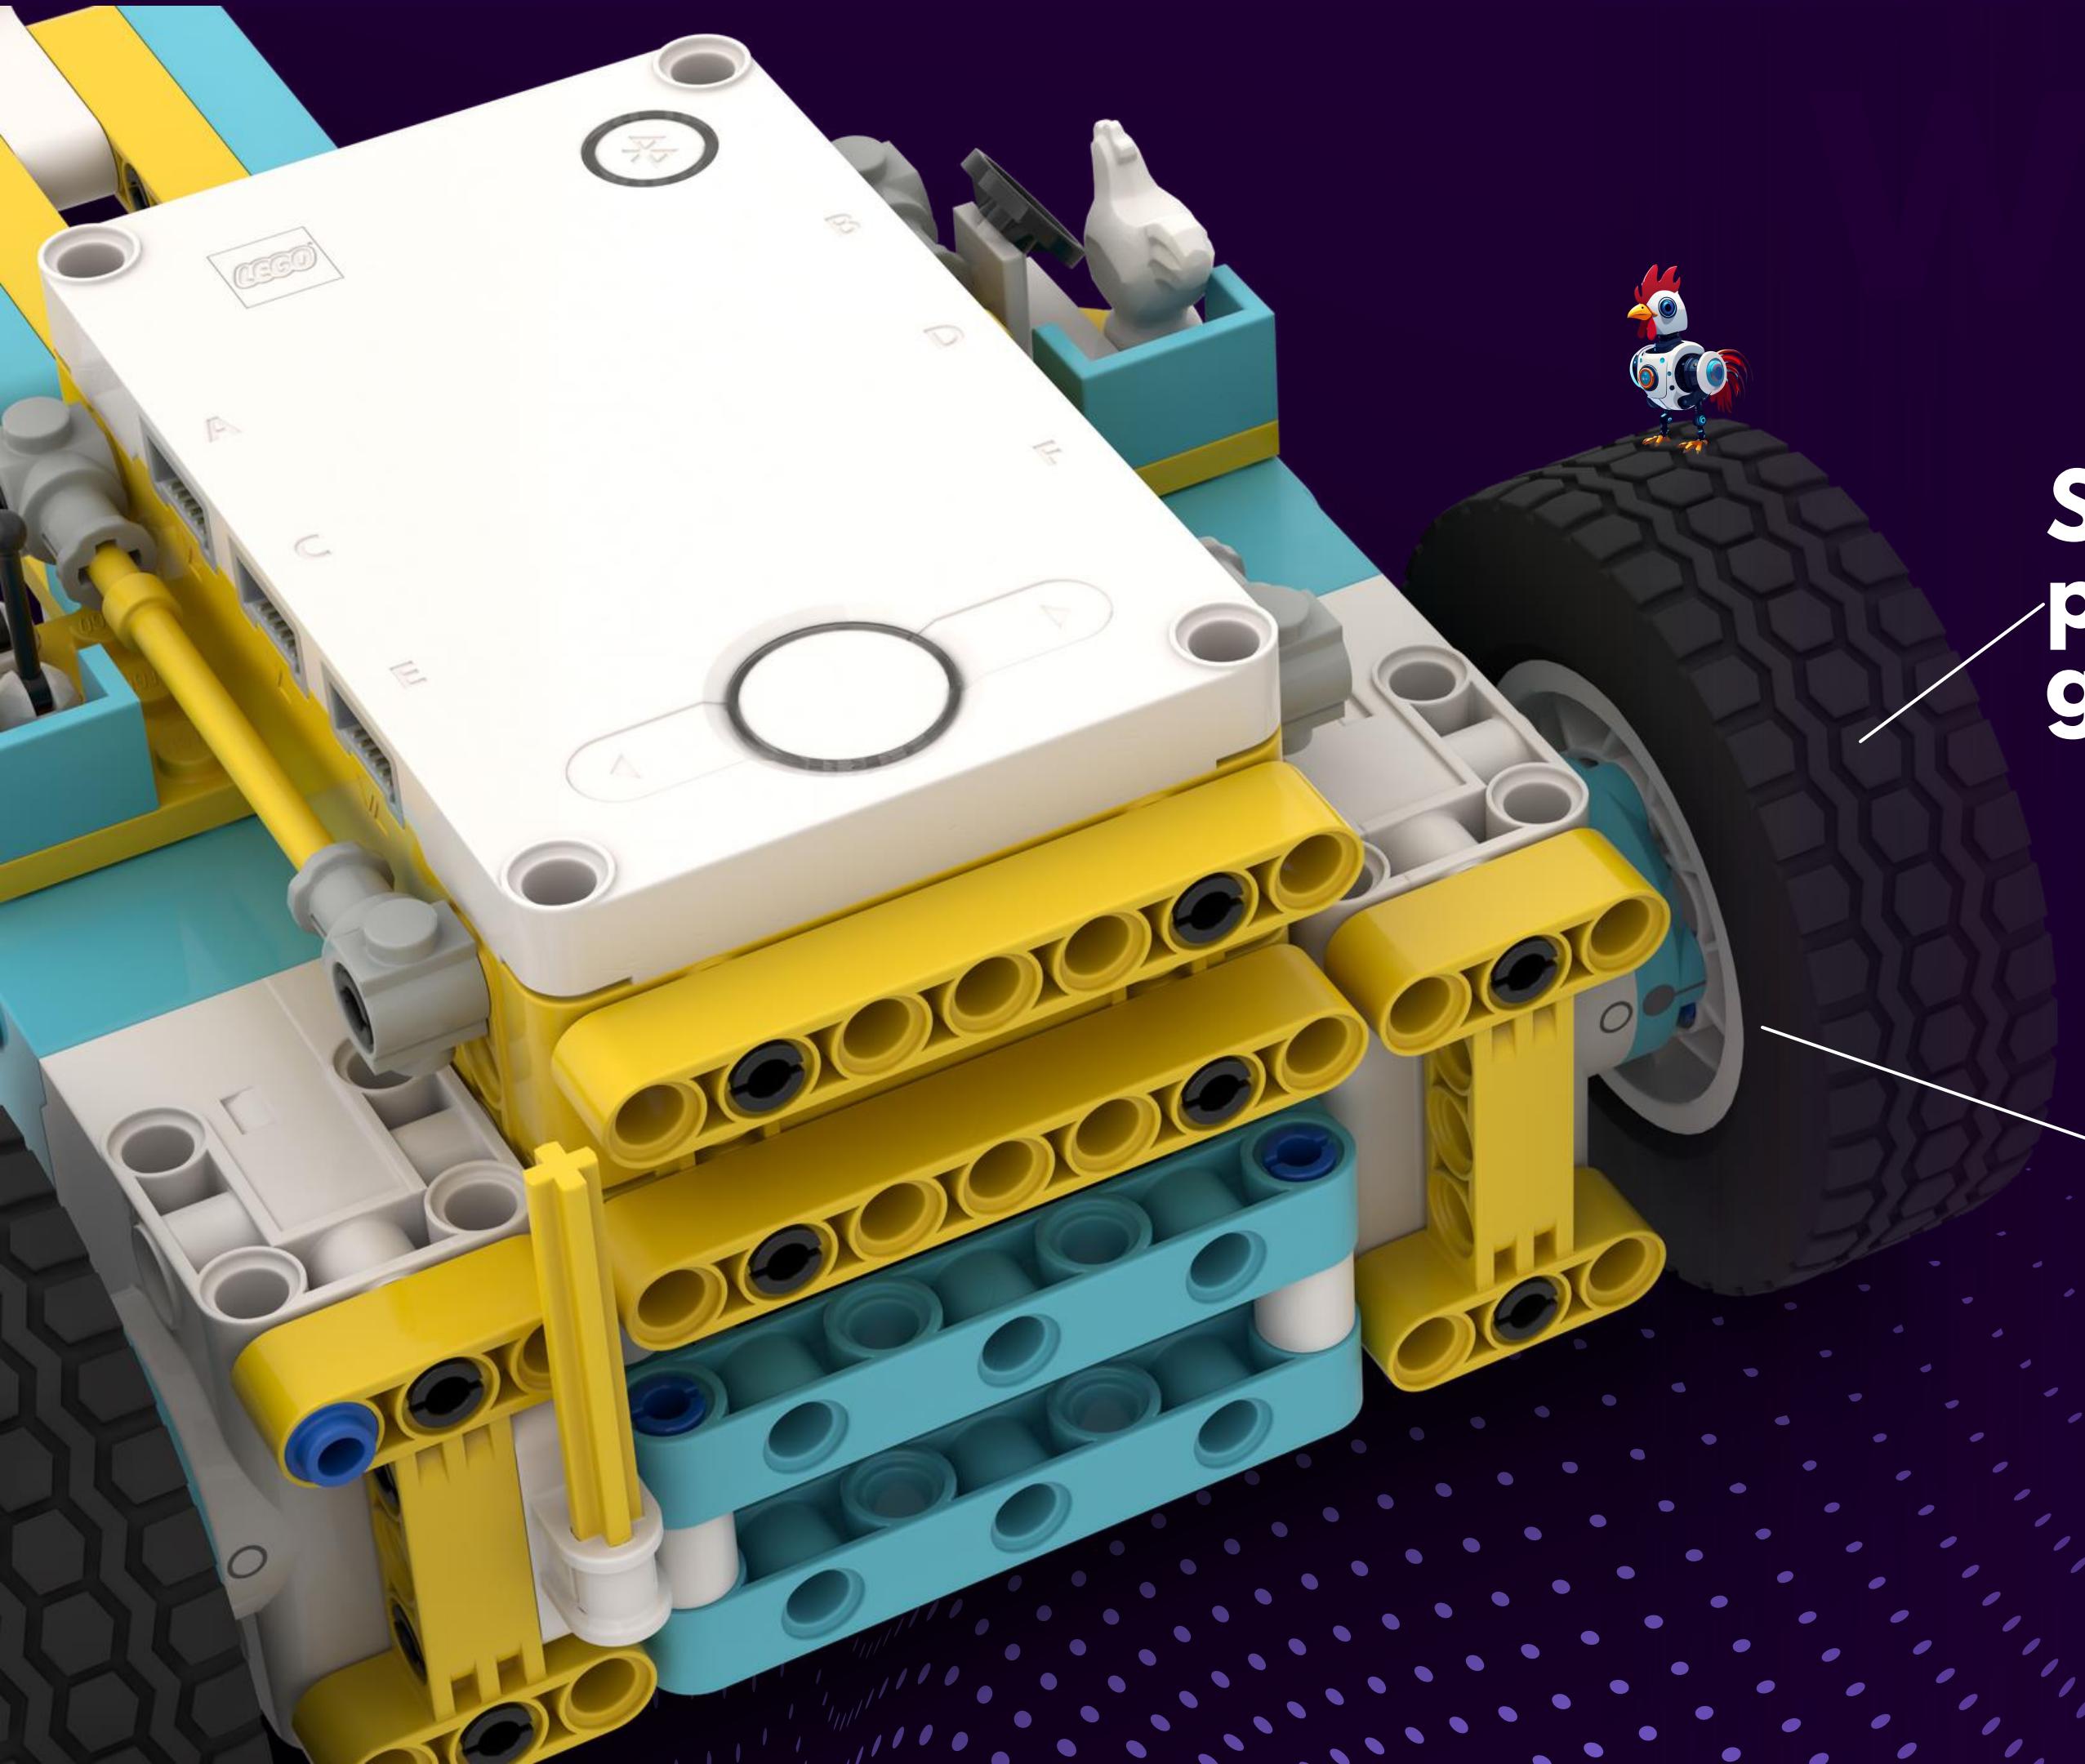

**Parallel joint  
enables efficient  
arm movement**

**Small extra  
hinge permits  
more complex  
movements**

**Base motor  
placement allows  
180° of  
movement**

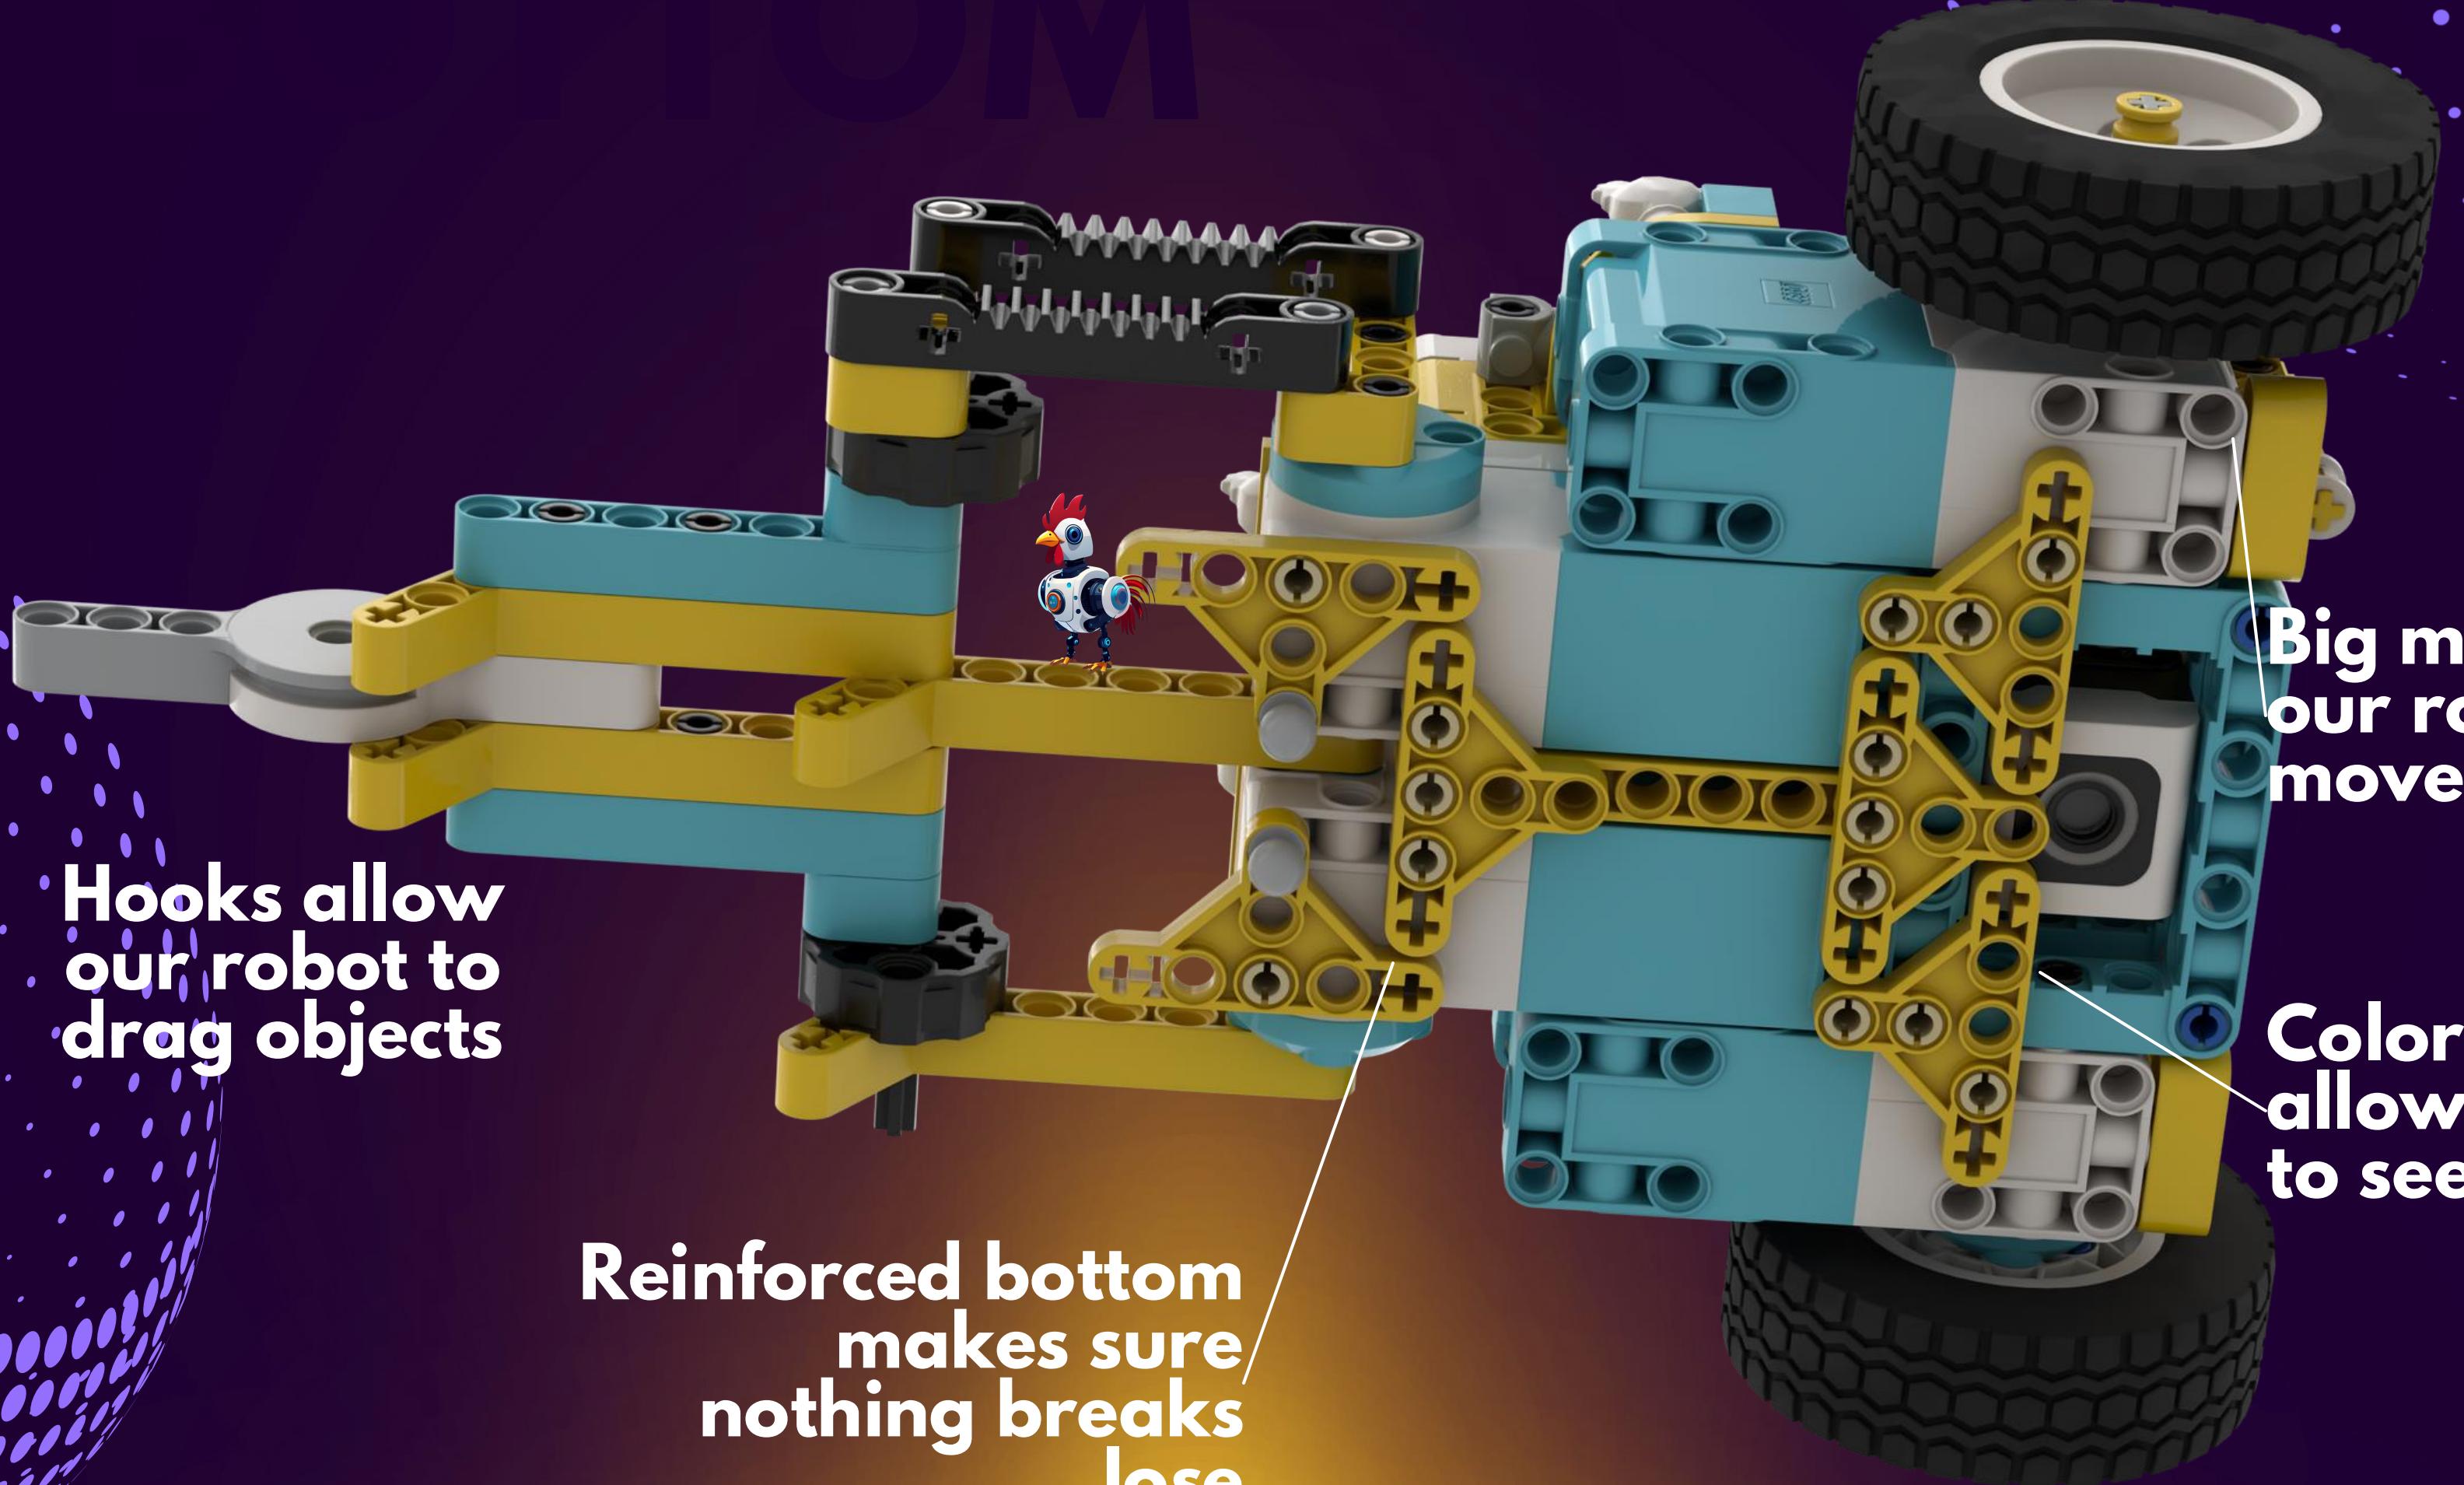

# EEELS

**Squishy wheels  
provide more  
grip and speed**

**Close wheel connection  
minimizes camber**

**Hooks allow  
our robot to  
drag objects**

**Reinforced bottom  
makes sure  
nothing breaks  
lose**

**Big motors allow  
our robot to  
move fast**

**Color sensor  
allows our robot  
to see colors**

# MODEL EXAMPLE

## FRITZ-PAK

FRITZ PAK CORP has been kind enough to send us a free sample of a product called Hydrocizer. This is an anti washout admixture that lets us make concrete under water.
